

Team Involvement in Demonstration

OptiCrop: Smart Agricultural Production Optimization Engine

Date	28 June 2026
Team ID	XXXXXX
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Team Involvement in Demonstration

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

2	Bhavani Dunna	Data Engineer	Dataset Overview & Preprocessing	Explained the crop dataset (N, P, K, temp, humidity, pH, rainfall); demonstrated data cleaning and feature engineering steps using Pandas and NumPy	Active
3	Mondam Sandhya	ML Engineer	ML Model Training & Evaluation	Demonstrated model training using Scikit-learn; compared Decision Tree, Random Forest, SVM, and Naive Bayes; presented accuracy and performance metrics	Active
4	Mondam Spandhana	Backend & Demo Operator	Live Crop Recommendation Demo	Operated the Flask web application live; entered sample soil and climate parameters;	Active

2	Bhavani Dunna	Data Engineer	Dataset Overview & Preprocessing	Explained the crop dataset (N, P, K, temp, humidity, pH, rainfall); demonstrated data cleaning and feature engineering steps using Pandas and NumPy	Active
5	Mondam Spandhana	Visualization Presenter	Data Visualizations & Insights	Presented Matplotlib and Seaborn charts including heatmaps, bar graphs, and distribution plots; explained crop-environment correlation insights	Active

Team Coordination Notes

Aspect	Details
Team Leader / Coordinator	NO Team Lead
Overall Team Coordination Rating (1-5)	5 / 5 — All members were well-prepared, transitioned smoothly between sections, and maintained a professional presentation throughout
Any issues during demo	Minor delay in loading the Flask web application during the live demo due to a slow network connection
How issues were resolved	Mondam Sandhya Pannuru quickly switched to a pre-recorded screen capture of the app while Mondam Spandhana restarted the server; demo resumed within 90 seconds without affecting the overall flow
